

## II – 5. Rolling towers

1. Are you using a safety belt?
2. Are there facilities allowing vertical access?
3. Do you climb up and down with nothing in your hands?
4. Do all four wheels of the tower have brakes?
5. Have outriggers been properly set up?
6. Are towers moved only when no one is on them?
7. Is the tower within the height limitation of five levels?
8. Is there a sign indicating who is in charge?
9. Do you avoid using a stepladder or stand on the working platform?
10. Is there a handrail at a height of at least 90 cm?
11. Has a checklist been posted?
