

VIII— 2. Working near foamed plastic insulation

1. Are areas near places where fire is used clear of combustibles?
2. Are workers using fire-prevention sheets?
3. Has a sign been posted indicating the areas where heat insulation work will take place?
4. Is work conducted under the direction of the operations leader?
5. Have gas cylinders been secured with a rope, etc.?
6. Is there a fire extinguisher nearby?
